Gregory Knighton Page 42 1 the entire frame. 1 2 Q Okay. And I understand that. That's not my 2 3 question. 3 4 A Okav. 4 Q 5 Q My question is to you: Do you know if there's a 5 6 term of art or if there's a specific 6 7 particularized meaning to the term frame and to 7 8 legs or columns in the adjustable height desk 8 9 industry? 9 10 10 A I don't believe -- I believe that a column has a 11 name, just as a foot has a name and an upper 11 12 support has a name --12 13 Q Okay. 13 14 A -- but they all are incorporated in a frame. 14 15 Q Okay. And the companies like Linak, for 15 16 instance, if they cut a distinction and say, no, 16 17 there's a frame, and then separate and apart 17 18 from that, there's a column or there's a leg, 18 19 and they're two different things, you wouldn't 19 20 agree with that? 20 21 A Could you repeat that because I think --21 22 Q Sure. 22 23 A -- I'm a bit confused. 23 24 Q Yeah. With respect, for instance, Linak, all 24 25 right? If they -- if they use the term frame in 25 Page 43 1 their industry, a particular meaning for it, 1

Page 44 the population. I -- if we referred to a definition of what it is, I think that would be a good example of what we could use.

Okay. But, again, going back specifically to the adjustable height industry, is it fair to say that you don't know if frame has a particularized or unique meaning separate and apart from a column?

MR. BATES: I'll just object to the extent that that mischaracterizes his former testimony.

But answer, if you can.

MS. TOY: And asked and answered already, I believe.

THE WITNESS: And I do believe we are going in circles right now.

But I -- I believe that, with regard to what I say is a frame is what the general public who we speak to would refer to -- refer to a frame. I mean, I -- that's what I believe.

Q Okay. And, again -- and I'm not asking about the general public. And that's the reason why I asked the question again because I'm really

Page 45

2 separate and apart from a column or a leg, you 3 wouldn't agree with that; you'd say it's all 4 part of the frame? 5 A I think if -- if Linak said that they were 6 selling you -- because Linak specializes in 7 columns. They do not specialize in 8 manufacturing feet or upper supports. So what 9 they're going to label their product that 10 they're selling to you as an OEM is likely to be 11 a column because they don't -- just recently 12 within the last couple years, they started to 13 offer feet because customers weren't able to 14 access feet. So, yes, I can see them saying 15 this is, in fact, a column, because it is a 16 column. But, in order to be a frame, it needs 17 to incorporate all of the components. 18 Q And that's your opinion, right? That's what you 19 think? 20 A I would say that the majority of people would 21 agree with that opinion. 22 Q The majority of who? When you say the majority 23 of people, are you talking about people in the 24 standing desk adjustable height desk space? 25 A I would say the -- I would -- the majority of

trying to ask a really specific question and you're kind of answering a little differently than the way I'm asking it. So if it seems like I'm asking it again, it's really because -- and if it's something you can't answer, that's fine, too; I mean, that's a fine answer. Or you don't know; that's a fine answer as well. And I'm not trying to put words in your mouth at all. So please don't take it that way. I just want to make sure that, with respect to my question, if you feel like you've answered it, that's fine.

But you've said that you're an expert in the manufacture and design of standing desks. Certain industries, standing desk being one of them, probably have unique terms that are used in the industry to refer to different parts of their products. Would you agree with me? For --

MS. TOY: I'm going to object. It's an incomplete hypothetical.

But answer, if you can.

THE WITNESS: I -- I think with anything, there's different parts that make up something greater. And I believe that a column is a component or part of a frame. I don't know

Page 50 1 Q Okay. 2 A -- since the beginning. 3 Q And then Ryan, what is his title? 4 A He's vice-president. 5 Q Okay. Are there any other management titles. 6 anybody else who holds a management title at BTOD? 7 A We had management. We had a manager for 8 9 marketing. And we had a manager for sales, but 10 we've actually transitioned to a lead setup, so 11 there's now team leads for each department. And 12 that happened within the last -- within the last 13 year. 14 Q Okay. Going back to 2017, can you tell me who 15 would have been -- what the management positions 16 would have been in 2017? 17 A 2017, I would have had -- Ryan would have still 18 been vice-president, of course. I would be 19 president. Kent Cloutier would be our sales 20 manager at that point. And that would be it as 21 far as management. 22 Q Okay. With respect to reviews of products, when 23 did -- when did you first start doing reviews of 24 products? 25 A 2017; in the beginning of 2017.

that they're talking about. But that required people to pick up the phone. And most people don't pick up the phone. So we wanted to find a way that we could kind of change the complexion of our business so that people would see that we're experts without having to call.

Page 52

And, by chance, I actually read a book by a gentleman called Marcus Sh- -- named Marcus Sheridan. It's called They Ask You Answer. And it really transformed my way of thinking of how we could approach our industry in a way that I thought -- that I thought was really needed. It was a foundation of basically they ask the questions, they being the customer, and you answer them honestly and transparently, consistently.

And it focuses on five major pillars.

And it's -- it's -- it's the foundation of what
we do. And that's why we started doing it.
Because the things that he said to do, the five
major pillars incorporate reviews, things like
costs, comparisons, problems with products, best
of lists. Those are the things that consumers
have the most questions on and so that's why we
decided to make that change.

Page 51

Q Why did you start reviewing products in 2017?

2 A So we actually -- I think the story is well3 documented on the web site. There's a video

that actually explains the whole thing, so -- we

had gone through that rebranding from Beyond The
 Office Door.com to BTOD.com. And any time you

Office Door.com to BTOD.com. And any time you change a domain like that in Google, it can

7 change a domain like that in Google, it car8 really cause chaos. You're likely to lose a

significant portion of your traffic for more the

organic side. Your paid advertising will resetitself, and you'll basically be starting in the

11 Itself, and you'll basically be starting in the 12 basement there. And so, you know, we -- we

basically kind of had to -- kind of had to start
over, in a sense, with some things, and kind of

over, in a sense, with some things, and kind of build ourselves back up, I guess you could say.

Having been in the business for a long time, I'd say we had good standing in the

business. But we realized we kind of needed to -- kind of needed to change our approach.

And I think I documented this in the video that

I did. But basically I said that when people

called us, one of the things that made usdifferent is that the people that answer the

24 phone are consistent and they always know what

they're talking about. They know the products

Page 53
1 Q Okay. Did you see an uptick in your sales after
2 you started reviewing products?

A It definitely wasn't immediate. I mean, you -we -- we had to -- we had to do -- we had to
write a lot of content to, you know, build a
good resource that people were able to get the
answers to their questions. So it definitely
took a long time to kind of get going.

9 Q But, ultimately, did it improve your sales?

10 A Yeah.

11 Q Okay. I'm going to hand you what's been marked12 as Exhibit 2. Do you recognize that document?

13 A Yeah.

14 Q Okay. And if we look at the first page, it says 15 about us. Well, I guess it's -- it could be at 16 the second page. The web sites don't always 17 print real neatly like they display on a 18 computer.

1		BTOD.com?	1		Do you see that?
2		No, no.	2	Α	Yes.
3	Q	Because, I mean, it's pretty clear from this;	3	Q	Okay. And it looks like, it says, Greg
4		it's like The Breakroom Blog falls underneath	4		Knighton; that's you as the author?
5		BTOD?	5	Α	That's correct, yes.
6	Α	We want to keep it all connected to make sure	6	Q	Anybody else have any input in this?
7		that everybody knows who we are. We're not	7	Α	No one else has input in this list, no.
8		trying to hide that there's an educational	8	Q	Okay. And like I like I mentioned, it's
9		component to push people to our Ecommerce site.	9		double sided, so if we go to the it's the
10		We're we're very clear that we're the same	10		bottom of the second page, which is going to be
11		brand.	11		the back of the first page. It says, best
12	Q	Okay. I'm going to hand you what's marked as	12		standing desk for 2020. Do you see that?
13		Exhibit 4. I think it's all one. And it's	13	Α	Yes.
14		actually double sided.	14	Q	Okay. And then it's got a list of 13 well, I
15		I'll give you that; there you go.	15		guess it I guess there's nine that are in the
16		THE WITNESS: There's so much content	16		list. Is that right?
17		here.	17	Α	That's correct.
18		MR. KERLIN: That's all right. I only	18	Q	Okay. So the first one is NewHeights XT. Who
19		have one extra copy.	19		sells NewHeights XT?
20		MR. BATES: That's fine.	20	Α	We sell NewHeights XT, as well as a long list of
21		THE WITNESS: It really doesn't print	21		dealerships, Amazon. I think Wayfair has it.
22		very well.	22		Quite a few quite a few web sites.
23		MR. KERLIN: No. It's a real	23	Q	Okay. But, specifically, that's one product
24		challenge to to print web sites.	24		that your company sells. Is that correct?
25		MS. TOY: Paul, you've given me one	25	Α	We do sell that product, yes.
		Page 67			Page 69
1		with writing on it. Did you	1	Q	All right. And then if we go to the next page
2		MR. KERLIN: Okay.	2		and look at the second on the list, it's got
3		MS. TOY: Is this your is this the	3		VertDesk v3. Do you see that?
4		one that you want?	4	Α	Yes.
5		MR. BATES: Probably.	5	Q	, , ,
6		MR. KERLIN: Oh, yeah, it is.	6	Α	That is our private label product.
7		MR. BATES: It says PBK copy.	7	Q	So you definitely sell that one
8		MR. KERLIN: Thank you.	8	Α	Yup.
9		MS. TOY: Uh-huh.	9	Q	correct?
10		EXAMINATION	10	Α	Yes.
11	В	BY MR. KERLIN:	11	Q	Okay. And if we look at those top two, those
12	C	•	12		are the only two that got rankings in the 80s.
13		Do you recognize this document?	13		Is that correct?
14	Α	l do.	14	Α	Yes, that's correct.
15	C	Okay. And it's a printout of a web site that	15	Q	Okay. Next one we have, the Xdesk Terra 1.
16		I've done. Do you recognize what web site that	16		That's my client's product?
17		I tried to print out?	17	Α	That's correct.
18	Α	It's our web site	18	Q	And we'll be talking about that some today. And
19	C	Q Okay.	19		then it continues on down. 6 is the EvoDesk,
20	Α	· BTOD.com.	20		which is also my client's product, which
	C	All right. And is this the type of content	21		we'll we'll have some discussions about as
21	٠		22		well. But the top two are the ones that you
21 22	•	that that that BTOD puts out?			well. But the top two are the ones that you
		that that that BTOD puts out? Yes. We put out best of lists.	23		sell, right?
22		Yes. We put out best of lists.		Α	sell, right?
22 23	Α	Yes. We put out best of lists.	23	A Q	sell, right? Yes.

2		there's kind of a blank there. And it says,	2	Q	Okay. So we don't have a written policy. Why
3		compare the nine best standing desks for 2020.	3		don't you have a why don't you write down
4		And it has NewHeights, followed by VertDesk are	4		your process? I mean, it seems like it's
5		the top two. And it has a numerical ranking	5		important that you'd would you agree with me
6		system. Do you see that?	6		it's important to compare the products on a
7	Α	Yes.	7		similar basis?
8	Q	Okay. How did you come up with the numerical	8	Α	I mean, I have I have systems that I know
9		ranking system?	9		that I follow for certain things. I mean, if
10	Α	Are we referring to the actual rank of the	10		you wanted to talk about something specific,
11		products?	11		it's only me doing it, so I'm not delegating the
12	Q	So what I'm referring to just so that we're	12		task.
13		clear is on page four of Exhibit 4,	13	Q	Okay. Do you have, like, a rubric or any type
14		underneath compare the nine best standing desks	14		of a well, I guess we'll just we'll start
15		for 2020; if we, for instance, go to rank number	15		with what your system is. So when you decide
16		one, NewHeights XT for assembly, NewHeights gets	16		you're going to review the NewHeights XT, how do
17		an 8.2. How did you arrive at the 8.2?	17		you arrive at an assembly score of 8.2?
18	Α	I arrived at the 8.2 through my process of	18	Α	
19		assembling the table.	19		it's a top ten top down mentality when we
20	Q	Okay. And I'm guessing, since you have metrics	20		look at this stuff. So I look at what is
21		for all these different the different desks	21		considered to be the easiest. And you'll notice
22		underneath it, that there's some type of policy	22		that my list doesn't include any tens because I
23		or written procedure that you have as far as how	23		don't believe anything is perfect. But it's top
24		you come up with a particular ranking. In other	24		down. So whatever is the easiest that I've
25		words, a one might have a certain criteria and	25		reviewed holds the top score, which is a
1		Page 71 a I'm guessing, is it on a scale from one to	1		Page 73 ProDesk 60. And it's well-documented in that
2		ten?	2		review why that's the easiest.
3	Α	Correct.	3	Q	
4	Q	Ten being the highest?	4	Q	NewHeights XT with an 8.2, how is there a
5	A	Yes.	5		difference of of one between those two?
6	Q	Okay. Some type of written criteria about how	6	Α	<u> </u>
7	Q	you arrive at that number? Is there any type	7	^	is certainly my opinion with this. I'm I'm
8		of of written policy or process that you have	8		basing that off of things that I would feel
9		for how you come up with, under assembly, a	9		would be considered pain points after you
10		numerical ranking?	10		know, as you review a lot of these desks and
11	Α	We I don't I'm the only one doing this, so	11		assemble a lot of desks, you have a good
12		there isn't a written formal policy that's on	12		familiarity of how things go together and how
13		record for creating these.	13		easily they go together.
14	Q		14	0	Okay. With respect to I'll jump to the last
15	æ	assembly, stability, electronics, and capacity?	15	Q	column, capacity. How do you arrive at the
16	Α		16		capacity?
17	Q		17	Α	
18	æ	does these, I just want to make sure we're	18		manufacturer's specification. So if a
19		clear. With respect to reviewing standing desk	19		manufacturer states a number, that is their
20		products for your company, are you the only one	20		number that they have for their capacity.
21		that does the reviews?	21	Q	
22	Α		22	Q	that correct?
23		No one else has input on those?	23	Α

25		standing desks. I am the only person who	25		testing?

Page 76 Page 74 1 A It does not. 1 concept, so it's a top down mentality. I look 2 at, basically, what is the best. And you can Q Where does that get incorporated? Is that in 2 3 the individual review --3 see that the Xdesk Terra scored the best here. A Individual --4 4 They use Linak. I feel that's the best. And 5 5 Q -- of the products? that's without question. 6 A -- reviews. 6 Q And then if we're getting back to your list of 7 Q Just so we don't talk over each other. 7 the top nine as far as the numbers, so I see A All right. 8 8 kind of down here where you have compare them, 9 Q Okay. So the score as it's here is simply based 9 and it's got the four columns, assembly, 10 10 upon what -- what -- what the manufacturer of stability, electronics, capacity. And you have 11 these desks holds it out as far as the capacity. 11 a score for each, right? 12 Is that --A There should be more. It looks like it cut off 12 A So these scores are pulled from each individual 13 13 the rest of the --14 review. So if you wanted to see where these 14 Q Oh, I see. And so is it an aggregate of all 15 scores are coming, they're coming from the 15 those --A It's an average, yes. 16 individual reviews. They're brought and -- onto 16 17 the big list and then ranked accordingly off of 17 Q It's an average of them? 18 the average of all of the scores that I've 18 A It's an average of them. 19 provided. 19 Q And then -- I mean, I guess you multiply by 10 20 Q Okay. But I just want to make sure I 20 to get to 85 out of 100 for the NewHeights XT. 21 understand, like, where you have a nine here, so 21 Is that how --22 let's say I'm a customer and I'm coming here and 22 A That -- right, that would be -- right, exactly. 23 I'm looking to buy a product. And I'm going to 23 I mean, that's a --24 buy a product that can lift the most. 24 8.5 --Q 25 25 A Uh-huh. Α Yeah, if you --Page 75 Page 77 Q -- out of ten? 1 Q I've got, I don't know, four or five monitors. 1 2 I'm a stock trader or something. I need -- it's 2 Α Right. 3 going to have to lift the most. If I look at 3 Q Got it. Okay. 4 your capacity, it would seem like EvoDesk or 4 And it looks like with respect to the 5 UPLIFT are the -- or, I should get one of those 5 Terra -- and we'll talk about this more in 6 two. Is that right? 6 detail when we get to the specific posts -- but 7 A If you want to get something that lifts the most 7 your primary -- where they scored -- where that 8 and it's guaranteed by the product manufacturer 8 product scored the lowest was stability, 9 brand selling --9 correct? 10 Q Uh-huh. 10 A That's correct. 11 Okay. In fact, it's the second to lowest out of 11 Α -- ves. all the desks you reviewed of these nine? 12 Q Okay. And when you test it for capacity, you --12 13 did you test to make sure that the capacity that 13 Α Yes. 14 14 Okay. I want to talk a little about K & A. How was listed by the manufacturer could be met by Q 15 the product? 15 big is their manufacturing facility? 16 A Yes. 16 I can help you out. I can be a little 17 Q And what if it didn't? How is that reflected in 17 more specific. But do you have an idea about 18 here? 18 how many square feet their -- their facility is? 19 A Then -- then it -- if it doesn't meet the 19 A I -- I do not know for sure what the exact capacity by the manufacturer, then the score 20 20 square footage is. 21 21 Q And, again, I'm not asking exact. Can you give would be adjusted accordingly based on how all 22 22 an idea -- how many employees work there, if you the other scores are ranked.

Pages 102 to 105 Page 104 Page 102 1 the representative from Evodesk. 1 vou also think that it's been uploaded to the 2 Q Okay. 2 cloud somewhere? 3 A Like, I would assume they probably have records 3 Α Yes. 4 Q Okay. When you went and found where it's 4 of this exact conversation as well. 5 Q Okay. If we go to the next page. It looks to 5 located, these -- these documents that have been 6 be similar. If we wanted to know the date that 6 produced to us, or a printout of them, where did this -- this chat occurred, would we need to 7 7 you find them? 8 look at when the .jpeg was created? 8 A Under the hierarchy of the files that was -- I 9 A I think this one is exactly the same. It looks 9 believe it was under, like, blog, NextDesk, and 10 like it's a duplicate. 10 they were -- they were saved in there. 11 Q Okay. So one -- one and two are the same. Is Q And that's on the cloud? 11 12 that correct? 12 A That's on the cloud. 13 A It appears so, yes. 13 Q All right. So we get to page four, same Q Okay. So there's one -- okay. That's -- takes 14 14 question. Same -- is it fair to say for four 15 care of that. 15 and five that it's saved the same way. Is that accurate? 16 We get to three. And it looks like 16 17 you're chatting with Grover now. Same question. 17 A Absolutely. 18 If we want to know when this was done, we'd have 18 Q So it's going to be the same -- if we're trying 19 to look at the time the .ipeg was created? 19 to figure out when it was created, that's where 20 A Or you should be able to look at Evodesk, their 20 we need to go and look? 21 21 Absolutely. But, like I mentioned, they should chat log. Q When was the -- okay. What computer 22 have access to these things. We have access to 22 23 specifically did you save these .jpegs onto? 23 chats that we do, so they should have access to 24 Like, your personal computer? Or your office 24 all this stuff as well. That company -- the 25 computer? 25 Pure Chat company should save it. Page 105 Page 103 1 A Yeah, so an office computer. So we have -- we Q And so then we go to the -- to page six. Now, 1 2 have a -- we went from a server, moved to a 2 it's a little bit different. It's a little 3 cloud environment. The IT company moved a lot 3 different layout. Do you know why it's a 4 of those files. They moved these files with. different layout than the others? I mean, it's 4 5 Q Okay. Do you know when that occurred? 5 a -- I call it a landscape? 6 Α The transition to a cloud? 6 A I -- honestly, I can't tell you. I just -- I 7 Q Yup. 7 just print them as I can -- it's kind of like, 8 A Transition to a cloud, when we moved in to our 8 you know, when we open this stuff up, and we 9 new building was the first week of January last 9 look at your stuff you printed, it's the same 10 year. And that's when we were fully up and 10 concept. It's hard to print web site stuff on running on the cloud. 11 11 the pages, so --12 Q Okay. Did you -- do you know if when it was 12 Q With respect to the name, this is the only one 13 migrated from one location to another, if it that I believe has a last name? 13 14 altered any of the metadata? 14 A Okay. 15 A I would rely on them to be the experts on the IT 15 Q Is that just the way it was when you were doing 16 stuff, so I don't know. I would assume not, 16 the chat? 17 but, again, they're the experts. 17 A I haven't altered any of these things, if that's 18 Q So is it -- is it true to say that it -- it no 18 what you're asking. 19 longer exists outside of the cloud? 19 Q I'm just -- I'm just wondering because some of 20 A Out --20 them don't have a last name. Actually, none of 21 Q Is it -- let me ask it like this. Is it saved 21 them do except for this one, and this one does. 22 to your desktop somewhere? Or to a local 22 So it was --23 directly on your computer? 23 I would go -- I would refer to -- to next for

Page 111 Page 113 that I ever made a note on it; I don't remember. This Robert Potts confirmed, I just verified 1 1 2 Q From what phone did you call when you called 2 that with my director after I'd asked if the 3 Christopher? 3 uprights of the NextDesk Terra are steel or 4 A I called from our office phone. 4 aluminum. He said, they are aluminum with some steel parts inside. 5 Q And what number is that? 5 6 A It should be a local -- it should be our local 6 O Okay. Let's finish with the document requests. 7 number. It should be a (715) 803-4041. 7 If we get to request for production number six, 8 Q Okay. So Christopher calls you back, makes the 8 just to close this out, which is on page number 9 arrangement for you to get the foot that was 9 five, it asks for all documents or 10 10 bent so we get you a new foot. Any other communications that support your contention that 11 conversation or discussion with Christopher? 11 you left a message for management, that someone 12 at NextDesk acknowledged the information on 12 A It's -- it's referenced in the post that we 13 13 their web site was incorrect, and y'all discussed what's now being referenced in this 14 again. And that's what I -- that's my -- I go 14 referenced that page we were just talking about. 15 Okay? So that's it, right? There's nothing 15 back to that for my source. 16 Q Okav. 16 else out there? No phone records, no anything 17 A I mean, I --17 else? 18 Q Other than -- let me just ask the question. 18 A I do not have phone records, no. 19 A Okay. 19 Q Okay. Okay. Okay. Are you familiar 20 Q Other than what's written on your post --20 with what's called search engine optimization? 21 21 Yes. Q What is it? 22 Q -- is there anywhere else that you would have 22 23 any type of documentation of your conversation 23 MS. TOY: Wait a second. I'm going to object. I believe this was something that's 24 with Christopher? 24

I mean, the goal is to be found. If your products fell in rankings, let's say to the second or third page of organic searches, would that have an impact on your business? I think so. Since you started doing reviews, and it's documented on your your web site that you transitioned, and rebranded, and that and you lost some of the, I'll call it, good will that had built up with Google as far as search results, without going into the minutia, okay? Is that generally accurate? I mean, you probably had rankings and then you probably fell in the rankings when you rebranded. That's correct. Okay. And then have you been able to build that back up over time?

- 1 Q Okav. Would you consider Wirecutter an 2 authoritative source on standing desks in the 3 industry?
- A I would say that the author, Kevin Purdy who 4 5 wrote that post, became much more in tune than 6 he was when he initially started. Same thing 7 with Brian Lucash. They -- after spending more 8 and more time with the desks, they did get 9 better with the desks for sure.
- 10 Q Would you -- are they -- do you know -- I mean, 11 well, let me ask it like this.

Do you know one way or another whether they're knowledgeable about adjustable height desks?

- 15 A I don't know them -- I don't know them 16 personally and spend a ton of time talking with 17 them, so I can't vouch for their expertise. But 18 they are the most cited source for standing 19 desks, so they have the most impact on the web. 20 I mean, it's owned by the New York Times now, 21 too. It's a significant source of information 22 for sure.
- 23 Q Okay. And you said it was -- what was posted 24 about your version one VertDesk, I'm sorry, but 25 it was factually accurate. Is that true?

their search rankings?

- A What? 2
 - Q Have you ever spoken with Google about their spoke -- their search rankings?

Page 124

Page 125

- 5 A Spoken to someone directly at Google?
 - Q Yeah. I mean, yeah, ever called, e-mailed, communicated with them about search rankings?
- They're -- they're pretty outward with their content on things that happen with regards to 10 algorithms, and, you know, best search --
 - Q Uh-huh.
 - A -- practices, so I don't have -- I don't personally -- I don't think there is even someone that exists that is someone for a business to contact for search, other than some of, like, the ambassadors of search, like John Mueller, and people like that; Gary Illyes, those types of people. You can Tweet them, if you want.
- 20 Q Okay. But you haven't spoken with anyone at 21 Google?
- 22 A No, I have not.
- 23 With respect to the articles that you published 24 for BTOD, have you worked with any consultants?
- 25 A With regards to the articles, have I spoke with

Page 123

A Absolutely. 1

12

13

14

- 2 Q Okay. With respect to standing desks, do they 3 know the different parts of the desk? I mean, 4 the way they describe them in the article, do 5 they know what they're talking about?
- 6 A You know, I don't think that they go as 7 technical as we do. That's our -- we're more nuts and bolts, and they're not. And that's 8
- 9 their -- that -- I don't know why they're not.
- 10 Maybe it's because they don't get into that.
- 11 Maybe that we get into that because that's my
- 12 thing. We're more of nuts and bolts and how 13 things are made.
- 14 Q Okay. But just to tie this together before we 15 move on, the Wirecutter article was negative. 16 It impacted your business, right? And it was 17 relatively high in search results. Is that 18 correct?
- 19 A It was negative and it impacted our business, 20 but rightfully so.
- 21 Q Okay. When you've had articles that are 22 positive about products you sold, it's improved 23 your business. Is that correct?
- 24 A Yeah.
- Okay. Have you ever spoken with Google about 25 25

any consultants; in what regard?

- Q In any -- I mean, have you ever used a 2 3 consultant in any way, shape, or form for 4 developing your content that you posted?
- 5 A For SEO purposes?
- 6 I'm just asking in general; not specific to SEO.
- 7 A Have I ever spoke with someone who would help me 8 write the post?
- 9 Q Write, edit, comment on it, give you feedback?
- 10 A Okay. I have -- I have -- that's a -- that's a
- 11 tough question to answer. So you're -- like,
- 12 for instance, my wife, she edit my -- she has
- 13 edited my content.
- 14 Q Okay. Outside -- and I'm really -- I mean,
- 15 just -- just so we're clear, and I'm not
- 16 trying -- that's probably not exactly -- unless
- 17 she's a -- is she like a consultant?
- 18 A No.
- Q Okay. 19
- 20 Α She doesn't even get paid.
- 21 Q And I'm talking more about someone that you'd --
- 22 you'd pay for services that would come in and,
- 23 you know, maybe they think you ought to organize 24
- an article a particular way; maybe they're an
 - editor, something like that that would have

It wouldn't be there would be no problems post generated until I've had my time with the product going through the entire process. Q Okay. So you do a you did a review of the Terra, and then subsequent to that okay, I

This wouldn't be a review. So everything starts off the review and then kind of flows out from there. Q Okay. So before that, did you do a product review for the Terra? A Yes. So, like, this would have been reviewed in, I believe I want to say that it was reviewed in, like, October. This product was reviewed in October. And everything from that point forward, it wouldn't be put in a best of list. It wouldn't be put in a comparison. It wouldn't be there would be no problems post generated until I've had my time with the product going through the entire process. Q Okay. A That's correct. 2 Okay. Is that typical of what you do, is that 3 you review a product and then you'll identify problems with it afterwards?

- A So I follow that Marcus Sheridan model. It's 5 6 the five big pillars basically. It's the things 7 that customers care most about. So we follow 8 what -- the five majors that he recommends, 9 which, again, we look at product reviews; we 10 compare things; we've got best of lists; costs, 11 and problems. That is what -- if you look at 12 consumers as a whole they care most about
- 13 Q Okay. Well, I might have it somewhere here. I 14 don't have it right in front of me. But let's 15 just go through the process because, I mean, 16 this is something you do. It's not the post 17 that we're going to talk about that's the action 18 of this lawsuit. But I want to understand what 19 vour review process is because it sounds like 20 the information from your review, at least part 21 of it, ended up in the post. Is that fair?
- 22 A Yeah. I mean, anything that is ending up in 23 that post is from my experience with the product 24 through the review.
- 25 Q Okay. So packaging had been mentioned by

Page 132 certain types of brands, some bolts may be more difficult to access, and so we discuss that.

With our product, we have a hex rod. We know that that's a pain point -- pain point for people as they try to assemble the table. And as you -- you know, as you assemble all these tables, it becomes clearer what are, you know, pain points for most people, but doesn't necessarily cover everybody. I do my best to give my opinion with regards to how the assembly process works.

- Q Okay. What's next?
- 13 Once the desk is assembled, we go through -- I 14 go through my -- my process of testing the specs 15 of the table.
- 16 Q With respect to the specs of the table -- for 17 the table, where do those come from? Is that from the manufacturer? 18
- 19 A Manufacturers will list specifications for their 20 tables, ves.
 - Okay. What are you looking for there? Q
 - A Looking at, really, the basics. We're looking at -- that it has a height adjustment range that's advertised or can be achieved. We're looking at the adjustment speed of the desk.

Page 131

- counsel, so we got -- where I've gotten to is:
- 2 You order it, you receive it, you know --
- 3 A We show the picture. You've got a picture 4 there. We take pictures of the packaging. We 5 look at how it's packaged.
- 6 Q Okay. All right. Then you assemble it?
- 7 A I assemble it.
- 8 Q Okay. Is there any type of approach that you 9 take to assembly that you use?
- 10 A I just follow -- I follow their instructions.
- Q Okay. For your review, is it -- is it based 11 12 simply on time? Is it based on -- I guess what 13 I'm trying to say is, under that kind of subcategory, are there -- are there additional
- 14 15 categories that you consider? Like, can you
- 16 tell us more about your process? I mean, I get
- 17 you put the thing together. But just putting it 18 together, how does that end up in your review?
- 19 A We just talk about what -- I mean, I -- I
- 20 basically say how the experience went. So when
- 21 I'm putting the products together, do they go
- 22 together easily? Does everything line up
- 23 properly? You know, are there -- if there's
- 24 misaligned components, what are they? If
- 25 there's any particular pain points. So with

Page 133 We're looking at the weight capacity of the desk. We look at the sound of the desk.

- 3 Q Anything else?
- A We look at stability of a desk. And that's in, 4
- 5 like, the -- the major -- I'd have to look at
 - the -- just to make sure. It's a lot of stuff
- 7 off the --
- Q Sure. So I got height, adjustment speed, weight 8 9 capacity, sound, and stability. Anything else 10 that you can think of?
- With regards to those tests? I mean --11
- 12 Q Specifically -- and I don't mean to talk over.
- 13 She told me at lunch we were talking over each 14
 - other. But I had this category, kind of
- 15 generally described it as the -- you're looking
- 16
 - at the specs of the table, right?
 - A Uh-huh.
- 18 Q So with respect to the specs of the table, I've 19 got height, adjustment speed, weight capacity,
- 20 sound, and stability. Anything else that you 21
 - can think of?
- 22 Did I put adjustment speed in there did you say? Α
- 23 I did have adjustment speed, yeah. Q
- 24 Α Okay. And the adjustment range?
- 25 I had height. But I can -- would that be the

Page 136 Page 134 Is that --1 1 same or is that --Right. This would be more inspection based. 2 A That's the same thing, yeah. 2 Α 3 And then we also address that it has Inspection based. Okay. 3 4 4 Okay. Then what? overload protection. 5 And then it has collision avoidance. 5 So, in the inspection, we look at -- we would 6 Q Okay. What else? 6 look at the motors, the gears, the glides, the electronics, the columns, the feet. And we also 7 A I mean, from a -- from a testing standpoint, I 7 8 mean, the review is deeper than that. We go 8 address things like the -- I guess, the 9 through, you know, deeper into other sections as 9 functionality of a switch, so, you know, if it well, but -- so we look at things like the -- I 10 10 has one touch functionality, or if it's press and hold. It has programmable options that you 11 mean, there's -- I would have -- we could -- am 11 12 I able to pull up a review so we can just look 12 can program. If it has any other type of technology. In that collision avoidance, some 13 at it on the computer? 13 14 Q Well, the topic specifically asks for you to be 14 of them have, like, GyroSense and collision 15 prepared on this, so I really just want from --15 avoidance. That's like six way accelerometers. 16 A I just want to make sure nothing is missed, just 16 Q Okay. Anything else? 17 in case. I mean, this is my first time in a 17 A We also cover the brand, it's OEM, as is earlier situation like this, so it's --18 18 on in the post, but we cover the brand's OEM. I 19 Q Okay. So once you get done with the specs, I 19 think it's important that people know where 20 mean, if you can think of something else, just 20 things are coming from. 21 21 You cover the brand's OEM? Is that -- make sure let me know. 22 I understood it right. Okay? 22 A Okay. 23 Q We can talk -- we're going to talk about all 23 And what are you putting into -- so 24 24 when you say OEM, because we talked about this these in detail --25 earlier, when you say OEM, what do you mean? 25 A Okay. Page 135 Page 137 1 Q -- and I'm sure you might think of something Α I'm referring to the -- the company that's --1 2 when I really look at it, I'm looking at the -else --2 3 Α Yeah, yeah. 3 it kind of varies because brands will -- you 4 -- when we go through the eight solutions --4 know, if a brand is making a certain component Q 5 5 or accessing it from a different point, then we Α Okay. 6 Q -- you might say, oh, that's something else. 6 try to address those things. But a lot of 7 7 times, we're getting things that are like a --Α Sure. 8 Q I'm not trying to trick you there at all. I'm 8 for instance, like a -- a Jie- -- JieCang, 9 9 JieCang product is coming in a box with, like, a just trying --10 A Okay. 10 feet upper supports, the columns; it has the -- to get an understanding of what we can then control box, the switch. You know, like, we 11 Q 11 12 ask additional questions about. 12 would consider that to be the OEM. If they're 13 13 A Sure. So from the testing, from the testing making additional parts, then we would address 14 14 standpoint, that's what we're -- we're looking that as well. 15 at. We're also looking at, as my -- as my -- as 15 Q Okay. So we've done all this. Is there 16 my process has evolved to what it is today, and 16 anything else? 17 what it evolved into, probably I would say, by 17 Yeah. We have a section that's called the 18 the time I reviewed the Xdesk, we went deeper 18 things -- basically, it's, like, bullet points 19 diving into the desks. And we were looking 19 on the -- it's, like, the cliff notes, 20 at -- we look at additional things now as well. 20 essentially, of a review. It's the things that 21 But I wouldn't say it's pers- -- it's tests. 21 I like and the things that I don't like. And

Page 152 Page 150 1 A Correct. the other desks? 1 A Well, I mean, I -- I benchmark off of, like, 2 Q Okay. Before we get into this -- and I want to 2 3 go back to pages -- am I in the way -- 10, 11, 3 literally no movement at all. So that is a 4 and 12 on Exhibit -- I believe it's Exhibit 6. 4 sitting position for almost all standing desks, 5 5 so any -- anything that the majority of people the production. 6 Page 10, if I could direct you there. 6 would be using, a sitting height, that's where 7 All right. Between page 10 and 11, it starts, essentially. And if -- I would say 7 8 can you tell me what parts of these notes apply 8 that 90 -- probably if you'd look at the list, 9 to the Terra desk, and the Evodesk, or both? 9 you could see it's, like, 95 percent of standing 10 10 A These are all related to the -- these are all desks at sitting height exhibit almost no 11 related to it. 11 motion. They're, like, rock solid. That's 12 Q To the Terra, or to the Evo, or to both? 12 subjective, of course; but, I mean, I would say, 13 A To the Terra. 13 you know, you -- they don't move. 14 Q Just to the Terra. Do you have any notes 14 Q But if we look back at your review regarding similar to these for the Evo? 15 stability, want me to -- how many did you 15 16 A I do not. 16 say? 90 plus percent, there's no rocking 17 Q Okay. Have you looked for those? 17 whatsoever? 18 A I have. 18 A At sitting height. 19 Is that something that you would have written 19 Q Okav. 20 down at the time you conducted your process? 20 Α That's what I base it off of. 21 A When -- when I write all of my reviews, I am 21 Q You don't -- I mean, your statement here, front 22 documenting all the things that we discussed in 22 to back rocking motion was the worst I've 23 the testing. And it -- you know, it's on paper 23 tested. I mean, that's not specific to any 24 that I'm using at the time. So, yeah, I mean, I height. It's at all heights? Is that correct? 24 25 definitely take notes when I'm doing it. I 25 Overall, yeah. I mean, overall, that is -- this Page 151 Page 153 1 desk exhibited movement very, very low because 1 don't necessarily keep all of my notes for 2 future reference. I use my reviews for that. 2 of the foot bended -- or, bent. I say bended. 3 Q So we don't have any type of notes -- I guess 3 But it -- the foot was -- was literally flexing 4 4 on it. And so it exhibited stability issues basically all we have is the review that's 5 posted and the eight problems, is that accurate, 5 through all usable heights. I mean, it's --6 for the Evodesk? 6 O So I want to know, like, did you measure it? 7 Α Yes. 7 That's it. Did you -- did you take any 8 MS. TOY: It's six problems? 8 measurement of the rocking motion? 9 MR. KERLIN: I'm sorry. Six problems. 9 A I based it off of my opinion of the desk that I 10 **EXAMINATION** 10 had tested up to that point and these -- and it BY MR. KERLIN: 11 is a benchmark of what is at sitting height 11 where most standing desks will be solid and it 12 Q Okay. All right. So let's talk about the 12 13 moves up from there. This is -- this is 13 stability. Last sentence: Unfortunately, the 14 14 opinion. And stability is subjective. However, front to back rocking motion was the worst I I had a lot of experience at that point 15 have tested. 15 16 Do you see that? 16 reviewing desks and understanding what should be 17 A Yes. 17 expected and what shouldn't be expected for 18 Q Okay. And at this time, you're not sure exactly 18 stability, essentially. 19 how many desks you've tested but that's 19 MR. KERLIN: Object to the 20 something that we can independently verify, 20 nonresponsive portion. 21 21 **EXAMINATION** right, by looking at your web site? 22 22 BY MR. KERLIN: A Correct. 23 Q Okay. What type of metrics did you use so you 23 Q I'm just asking a real simple question. Did you 24 could determine that the rocking motion front to 24 take any measurements when you were assessing 25 25 back was the worst for the Terra desk versus all the stability of the Terra?

Page 156 Page 154 1 A I did not. So, left to right, it didn't have any issues up 1 to 48 inches. Is that correct? 2 Q Okay. With respect to the desks that you had 2 3 tested prior to the Terra, did you take any 3 A Yes, based on the notes. 4 measurements? 4 Q Okay. Do you know what the resting height of 5 A It wasn't until the wobble meter was developed 5 the desk is? In other words, the desk when it's 6 that we could quantify the movement. 6 lowered all the way down. 7 Q So the answer to my question is, no, you didn't 7 A I would have to verify again. I would have to 8 take any measurements, correct? 8 look at -- I would have to look at -- is it on 9 A Correct. 9 the notes on the web site? 10 Q Until -- would you say it was 2018 or 2019 when 10 Q Then at the -- then at the bottom, it says, 11 the wobble meter came out? 11 front to back. Is that correct? I'm A Right. And that -- there was no such thing to 12 interpreting your handwriting --12 13 measure such things. It was based on feel, 13 A Yup. 14 which is based on my experience. 14 Q -- so correct me if I'm wrong. 15 Q Okay. Can you show me where in your notes it 15 Yeah. It says 28 starts to rock. Α 16 references wobble or stability issues? 16 Q Is that 28? Okay. Starts to rock. 17 A The first thing, it says, aluminum foot provides 17 And then to the right, it's -- it's 18 little support on the first -- on page 10. 18 got a line. And it also has 28 inches to the 19 Q That's the second line from the bottom? 19 right of that line. And there's no indication 20 A Yes. 20 there. 21 Q Okay. Can you tell me what testing surface it 21 A Yeah. That was with -- that was with no glides. 22 was on? In other words, when you were 22 And the desk was just not very good with no 23 conducting this search -- this test about 23 glides. It was pretty much bad all the time. I 24 stability, what type of surface was it on? 24 think I have that in my review. It was --25 A I -- I do the tests on -- it would be on the 25 without glides, that desk is not stable. And Page 157 Page 155 1 same surface for all of these desks, which was, that's why I reference, you need to get glides 1 with your stand. You -- they charge for them; 2 like, a hardwood floor laminate surface that 2 3 was -- then I use a rug, the same rug. It's 3 you have to buy them. 4 documented in our review. It's the same cintas Q Okay. But with respect to your column where it 4 5 rug. We use a cintas rug that's a low pile 5 says no glides for 28 inches, you have nothing 6 carpet that is -- I believe it mimics most 6 written there. Is that correct? 7 commercial carpets. 7 A I have nothing written there. I can't --8 Q Approximately how thick is it? 8 Q Underneath for 35 inches. Is that a 33, a 35? A I would have to look back at my notes. I 9 9 Do vou know? 10 believe we have that. 10 A Yeah. 35. And then it looks like -- or, it's But it's consistent throughout all of a 33. I can't tell. It looks like a 33, 11 11 12 them. 12 actually. Q You have nothing written there as well. Is that 13 Q Okay. Did you level the desk beforehand? In 13 other words, did you put a level on it to make 14 14 correct? sure it was level before you started your 15 15 A Correct. 16 stability test? 16 Then on 38 -- is that a 38? Q 17 A I do not level the standing desks, no. 17 That's correct. 18 Q I think if we go to -- it's Exhibit 6, but if we 18 Q Okay. 38 inches, it says really bad. 19 go to the Bates ranges, the numbers ends in 11. 19 A Correct. 20 It says, on the left, halfway down, does it say Okay. If we go back to the left hand column, 20 21 wobble and rocking. Is that your writing? Is 21 there isn't any for 33 inches. 22 22 that what it says? Did you test it at 33 inches? 23 23 We -- we -- I test for -- we, actually, if you A Yes, yup. 24 Q Okay. It just says left to right. Do you think that the frame is the entire 17 evidence. 18 metal structure of the desk? Is that accurate? 18 **EXAMINATION** 19 BY MR. KERLIN: A That's accurate. 19 20 Q Okay. You then reference Linak. You referenced 20 Q Okay. But you haven't conducted any evaluation; 21 the Linak column, right, in I guess it's the 21 you didn't go to their web site and look and 22 next sentence. The odd thing was that NextDesk 22 say -- you're referencing the Linak column, but 23 has always used a Linak column for their Terra 23 you didn't go out there and look and say, well, 24 24 is the column part of the frame? You just made products. Do you see that? 25 25 an assumption that it's all part of the frame, A Okay, yes. Page 175 Page 177 1 Q Okay. To be more specific, this is the next right? 1 2 sentence, it has always been the DL4 series 2 A I -- it -- in my opinion, the frame constitutes column for Linak. This series from Linak has 3 3 all of the components we discussed. 4 4 Q Okay. And even though you're an expert, and only been constructed from steel. Okay. So how 5 5 you've said you're an expert in the design and could there be any confusion? 6 Your position, if I understand it 6 manufacture of standing desks, you again don't 7 correctly, is that the column is part of the 7 make a differentiation between legs, feet, and 8 frame. Is that correct? 8 frame, right? 9 A That's correct. 9 MR. BATES: Objection. That 10 Q Okay. Do you know how Linak -- am I saying it 10 mischaracterizes his testimony. He said that properly? Linak? Linak? 11 the legs and the feet and the columns comprise 11 12 the frame. 12 A Linak. 13 13 THE WITNESS: I mean, that's where --Q Linak. Do you know how Linak, since you're 14 referring to their column, how they refer to it? 14 all of those components make up a frame. There A I would imagine they would refer to, again, 15 are going to be different parts within a frame 15 16 different components of the column and frame, 16 that may have different names, but you need all 17 depending on what's all there, differently. 17 those components to make a standing desk frame. 18 **EXAMINATION** 18 It's -- if we're referring to specifically the 19 column, the upright portion, they're probably 19 BY MR. KERLIN: 20 going to call it a column. 20 Okay. Would you agree that Linak or Linak, that 21 Q Okay. You've -- you've -- you've gone to 21 they're considered an authoritative source for 22 Linak's web site, right --22 standing desks?

Α 14 is the Steelcase series seven desk. 2 3 Q And 15 is the desk that is the Terra desk? 3 Because they're included with every other Α 4 standing desk that I've reviewed for free. 4 Α That's correct. 5 Q Okay. Under solution, your first sentence 5 Q All right. So let's get to the other -- what 6 states, while there were a handful of additional 6 we're on. The reason why I had given it to you 7 items mentioned on NextDesk that were -- that is you said that there were a handful of 7 8 are simply not true, these are the two that I 8 additional items that are simply not true on the 9 found to be most -- to be the most important. 9 NextDesk. And I just wanted to know what those 10 10 Sorry. We talked about the two just recently. 11 Can you tell me what other items you found on 11 A It was -- it was -- it was definitely linked to 12 the speed of the desk. And I cannot remember if NextDesk that are simply not true? 12 13 A One is the best in class speed that they 13 they have on their site that they included the 14 advertise, which was 1.7 inches per second, 14 collision avoidance. But it was best in class. 15 which is not true. If I can look at the -- if 15 They make a bunch of best in class claims. And 16 we can pull up the review, I can see I'm pretty 16 I don't believe that all of them are accurate. 17 sure I'm at the bottom of the review. Or if I 17 I'd have to go back. I know that they don't --18 can just look on my phone. 18 they don't have best in class all the things 19 Q I have a copy of -- did you recently repost the 19 they list. 20 review? 20 Q With respect to the time -- so you've talked 21 21 about speed. Going back to your notes, is that A I updated the date. 22 Q Okay. Did you change anything else on it? 22 indicated on your notes where you took 23 A It shouldn't be, but I have -- everything that 23 measurements regarding that? 24 happens with the web site gets saved in Word for 24 Α Yes. 25 us, so --25 Q Okay. What was your 1 2 marked for identification.) 2 protocol? 3 **EXAMINATION** 3 A So when I run the test, I run the test with no 4 BY MR. KERLIN: 4 weight on the desk, just the surface. And we 5 5 will run it -- initially, when I earl- -- when I Q Handing you what's been marked as Exhibit 12, 6 Mr. Knighton, do you recognize this document? 6 was early with this first starting, I was 7 A I do. 7 obsessive over doing a lot of cycles, over ten, 8 Q Okay. It's a double sided printout that I made 8 and taking the average of that to get my number. 9 from your web site actually yesterday. Can you 9 And I realized that it didn't require that much 10 tell the jury what it is? 10 to get an accurate depiction of how the desk A This is the -- yeah, this is the full review for functioned, speed-wise. And so I'd take three 11 11 12 the Xdesk Terra. 12 and take the average of it. And so you'll see 13 Q Okay. And so you republished this, it says, 13 on the notes, there might not be a third one 14 October 18, 2019. Is that accurate? 14 listed, but it's usually the -- it would be the last. It would be the last one taken. And I'm 15 A That's correct. 15 16 Q Okay. And, again, if we go -- well, not again. 16 most focused on that. The -- and then, from 17 But if we go to page three, we talked about this 17 that, it's how does the desk stay when you were describing your overall process. 18 18 consistency-wise as weight's added. 19 You got the pros and cons. And under cons, you 19 Q Looking at Exhibit 6, and it's -- it's -- last 20 got stability issue at all heights. We've 20 two digits are 11, I think is where it has your 21 talked about that. Mismatched color -- colors 21 indication of -- or, where you made notes about 22 for frame. We've talked about that. No 22 the results. 23 overload protection. No anti-collision system. 23 Are those your measurements? 24 We haven't got an opportunity to talk about that 24 Α Yes.

A I tested the collision avoidance, which it doesn't have which we've shown documentation on. Q Okay. And we'll talk about collision avoidance, anti-collision avoidance or anti-collision here in a minute. Is there I mean, do you think that there is a problem with a desk if it's able to lift more than what its maximum rating is? A I don't know if it's I would say for warranty, which is very important with these desks Q All right. A people need to be considerate of what that is when lifting things on their desk. And that saves you from misuse and abuse, which is in almost every warranty for furniture. Q All right. So the next topic was that I wanted to discuss with you is no overload protection or anti-collision. We just talked about the overload protection. Let's talk a little bit about anti-collision. What is anti-collision? A Anti-collision is developed for to, I guess, stop desks from colliding with things in your office. Q Okay. And if we go back and I'm not trying to flip around a bunch of documents, but in your answer to interrogatory number two, it says, in addition, Gregory Knighton performed a manual anti-collision test, right? Okay. MS. TOY: Is that a yes? THE WITNESS: Yes. Sorry. EXAMINATION BY MR. KERLIN: Q Tell me what your anti-collision test is. A Push down on the desk as absolutely hard as you

And so what ended up happening is the process it I don't know the exact date on the I believe it may have been August when I did the IKEA, the first problems post on a standing desk was done for the IKEA, followed by my product, and then I kind of just went through the list of desks that I had reviewed. So there was really no rhyme or reason to why those problems posts were written when they were. It was just as they kind of came up. It just kind of worked out that way? Right. Okay. If we go to page two I'm sorry, I I I meant to start on page one. Okay. Yeah. I'm sorry but we're starting on page two. Your first topic that you have is over overlubrication, correct? Correct. Okay. Let's talk about a little bit about overlubrication. Okay. The first one, it says, over excuse me, one of the most common issues with the JieCang frame in Chinese

Page 222 Page 224 when you posted this article that the Evodesk 1 A Yes, correct. 1 2 Q Okay. Here it is. Okay. So it's the last page wasn't entirely manufactured in China? 2 3 3 of Exhibit 13. Okay. A I mean, I'm referring to the frame. So I'm 4 referring to the frame, JieCang or JieCang frame 4 A I don't know if I'm looking at the right stuff, 5 and other Chinese standing desks that I've 5 but I know what picture it is, so --6 reviewed. That's a common problem across the 6 Q It's --7 board with them. 7 A Which exhibit is it? Q I just want to make sure that we're both --8 Q Okay. But it appears -- okay. And you wrote 8 9 it, so we can figure it out here. But the 9 MS. TOY: Exhibit 13. 10 10 Chinese standing desk, when you reference **EXAMINATION** BY MR. KERLIN: 11 Chinese standing desk, you're not referring to 11 12 the Evodesk with that statement? 12 As long as we're both referring to the same 13 A I'm generalizing all standing desks that are 13 thing. It should be the last page, I think. 14 made in China had exhibited the same issues. 14 Okay. When did you take this photo? 15 Q Okay. But do you have an understanding of 15 This photo was taken -- I believe it was taken 16 whether or not the Evodesk is entirely 16 sometime probably around the review, but I don't 17 manufactured in China? 17 know for sure. It was either -- it would have 18 A I know that their top is manufactured I believe 18 been -- had to have been around the review. 19 Okay. So sometime in 2017 --19 in Minnesota. Q 20 Q Okay. The picture in this printout did not come 20 Α Correct. 21 out. And so what I think I'm going to do is 21 Q -- probably? 22 22 mark your motion for summary judgment. Well, Okay. On this picture, can you -- can 23 let me ask -- ask you this. So let's go back to 23 you describe for me what is the overlubrication 24 the photos just for a minute. 24 or evidence of overlubrication that you have 25 So I've got a handful of photos, some 25 referenced in your eight problems -- in your six Page 223 Page 225 1 of which were taken recently, some of which were problems article? 1 2 taken earlier. Okay? You have photos that are So, in the picture is just a picture depicting 2 3 on your reviews, correct? 3 what you can see on the outside. So if you were 4 A Correct. 4 to pull back from this picture, you would see 5 5 the white lubrication goes up and down the Q Okay. I asked for all the photos that you have, 6 and y'all referred me to your web site. I get 6 columns. And that's -- that's something that 7 that. But do the photos that are on, for 7 happens as the desk retracts and expands. And 8 instance, like the one -- you can't see it in 8 then what else I'm referring to is inside the 9 this one because they don't print out properly. 9 columns. 10 MS. TOY: It's part of the affidavit 10 And so when you open the column, 11 if you want it. Is that what you were looking 11 you'll see that they -- they have a lot of 12 lubrication, especially when we compare this now for? 12 13 13 to, like, a Linak product, which, again, is MR. KERLIN: Okay. Yeah. No, and I 14 appreciate that. 14 our -- what we've kind of focused on as being 15 the best of the best, and Ketter. These are two 15 **EXAMINATION** 16 BY MR. KERLIN: 16 of the leading producers of gears. The gears 17 Q Does that exist in it's -- I mean, like, what 17 are -- they're pretty messy. There's a lot of lubrication there. There's a lot of lubrication 18 was that taken with as far as a camera? 18 19 A It could have been the -- I mean, it would have 19 throughout the actual glides themselves when you 20 been either the Canon or my cell phone. So, I 20 open them up as well, especially when comp---21 21 when compared to what we consider to be premium mean, we're going to go through and find 22 22 whatever we have. columns.

Pages 226 to 229 Page 228 Page 226 1 around the motor, right? Was that an area where 1 A Well. I know that when you have lubrication that's this excessive, that things from outside, 2 there was -- like, where else was this excessive 2 3 contaminants, such as, like, dirt, dust, hair, 3 lubrication in addition to this part that we see 4 will stick to it. It pulls in. It will wear on 4 on the photograph? 5 those glides sooner than if it were clean. If 5 Well, this would be -- this -- I mean, this 6 there's nothing for -- if nothing can stick to 6 technically would be throughout the frame right 7 this column and it's moving in and out, it's 7 up and down the column portion of the frame. 8 going to remain a lot cleaner. It's going to 8 You would have it going from this -- the only 9 work a lot more efficiently over time. 9 one that wouldn't exhibit it on the outside 10 10 Q Have you done any long term study to evaluate would be the outer column at the bottom. But 11 whether overlubrication shortens the life span 11 the other two that expand, it streaks up and 12 12 down the columns. Now, when you open it up, the of the internal parts that you've mentioned? 13 A I actually -- we cycle tested a Jarvis desk. 13 gears inside, that's the same thing. And the 14 And it's the JieCang. And our OEM has done the 14 additional glides inside because you're going to 15 same thing. He actually just finished cycling 15 have an upper and a lower glide system. And those. And the -- the glides definitely play a they're lubricating -- they're really 16 16 17 pivotal role in what's happening with the desk 17 lubricating the bottom ones. And they are 18 and not functioning properly, specifically when 18 lubricating the top ones. It's kind of getting 19 intermixed here. And that's why it's pushing we look at collision avoidance, false positives, 19 20 stability issues, things of that nature. 20 out. 21 21 Q Okay. With respect to the feet, was there a Q Did -- that's not something that your answer lubrication problem with respect to the feet? 22 22 specifically on the Evodesk? 23 That's not something that you did 23 24 specifically on the Evodesk? 24 Q Okay. And you've described that earlier in your

Page 227

Q Okay. And then you state in the article, after cycling the Evodesk only a handful of times.

Can you tell me, like, how many cycles that would have been?

- A Yeah. You could run this desk up and down three, four, five times and it would start to show that lubrication up and down the columns.
- 8 Q Okay. If you ran it for a longer period of 9 time, in other words, if you cycled it for a few 10 hundred times, would that lubrication then go 11
- 12 A No. it just becomes -- it becomes more white.
- 13 Q If we get to the paragraph under the picture on 14 the same exhibit, it's Exhibit -- I think it's 15 fif- -- 14, excuse me. 14 or 15? 15. Sorry.

16 On page two, okay, the last paragraph, it says, 17 the overlubrication problem didn't just exist in

18 the glides. 19

24

25

A I did not.

What specifically are the glides?

20 A The glides are the plastic components that marry 21 the two columns together.

Q Okay. It says, this was a problem throughout the entire frame.

So tell me the -- tell me the other parts of the frame. I mean, you mentioned

A Correct. 1

25

2 Okay. So when you say this is a problem 3 throughout the entire frame, that statement's 4 not accurate, correct?

deposition today as part of the frame, right?

Page 229

5 A It isn't through the feet.

- 6 O Okay. Are there any other parts of what you 7 consider the frame, whether it wasn't a problem 8 with lubrication on the Evodesk that we haven't 9 already discussed?
- 10 Α
- 11 I'm going to turn you to page four of that same 12 document. There should be a section, section 13 four, low quality electronics. 14

Do you see that?

A Yes. 15

19

20

21

22

16 O Okay. Okay. First, it says a common problem we 17 have found among all Chinese desks tested has 18 been their low quality electronics.

Did I read that correctly?

- A That's correct.
- Q Okay. With that statement, are you categorizing the Evodesk as a Chinese desk?
- 23 A The portion of it that we're discussing here, 24 the electronics, yes.
- 25 Q You can't see the photo, but underneath the

Page 232 Page 230 1 photo, it talks about operate the -- excuse me. 1 like this. So if you just take a guick glance 2 opening the control box. Is that something that 2 at it, you can see there is no -- there's no 3 3 silicone holding components down. These things you did? 4 4 A Yes. are all held together properly with proper 5 Q Okay. And you mention there's a two board 5 stands soldered correctly. You know, you can 6 design. Why does it matter whether it's a two 6 see corners are being cut here with these 7 board design or a one board design? 7 connections. And there's no consistency here 8 A So I brought those. 8 with any of this epoxy that they put throughout 9 We should -- do we want to show them? 9 here. Same thing with the toroid cores. I can 10 MS. TOY: If it helps you explain what 10 bring out another one. You can see this should 11 you're getting at? 11 be perfection across here. It's not. 12 THE WITNESS: Yeah, I think so. I 12 Q With respect to the cost savings that you 13 mean, I -- we -- I have the one for -- we have a 13 believe they had, did you do anything to 14 picture of the one from the Evodesk; otherwise, 14 independently verify whether JieCang does, in 15 I have it here. We can take it out of the box 15 fact, use a two board system specifically 16 if we want. Again, it's just six screws. 16 because of cost savings as opposed to any other 17 **EXAMINATION** 17 reason? 18 BY MR. KERLIN: Like the rest of the desks -- I mean, the Xdesk 18 Α 19 Q Yeah, if you can just tell me generally. I 19 is twice the price of this desk, of an Evodesk. 20 don't necessarily need to get into it, but you 20 All of those things matter. In order to bring 21 make the statement that the main reason they use 21 the cost down of the desk, they have to go with 22 the two board system is cost savings. So I just 22 cheaper components. And that's throughout the 23 want to know what would be the cost savings 23 entire desk. How much is being saved? I'm not 24 associated with --24 sure. But money is being saved there. 25 A So if you take --25 Q Okay. I understand that. And I appreciate your Page 231 Page 233 Q -- two boards rather than one? answer. But specifically your statement is the 1 1 2 A Yeah. So if you take a look at what is -- so 2 main reason they use the two board system is 3 this is Linak. This is the same control box 3 cost savings. Did you do anything to verify 4 4 that that is, in fact, the case with JieCang? that's being used in the Terra --5 5 A I believe that's the main reason that all of the Q Uh-huh. 6 A -- right? This -- this is the pinnacle of --6 Chinese desks that I've reviewed are using the 7 this is the pinnacle of just perfection as far 7 two board system versus the more expensive 8 as this control box is concerned, right? 8 Linak. I have a law dictated one. You can see 9 Q Uh-huh. 9 they're consistent with each other. 10 A Okay. You can see it's -- this is engineered 10 Q And I guess I'm just trying to understand your 11 specifically for use in what they're doing with basis for that. And is that just your 11 12 observation from opening these control units as 12 it. When we look at the Chinese ones that we 13 13 well? Or is it from some other source? brought in, this is common across every single 14 one that I've reviewed, with one exception. And 14 A What are we referring to? What's the question? 15 that came later after this. It was a VariDesk 15 Q With respect to the main reason for using the 16 product from Kaidi. But they all are using --16 two board system as cost savings. 17 this is the portion for their desk. This is a 17 So I have a producer of -- he has probably now I

And so I just want to make it clear for the record, not that I'm necessarily going to try and ask the question today. But I just want to make sure that I'll have an opportunity, because I think they're going to be relevant to those claims, to come back and ask the witness about search engines -- in more detail about search engine optimization and consultants, specifically with regard to what's known as negative search engine optimization or black hat discussions, interactions, communications, e-mails, articles that might discuss Ron Wiener, his company, his products, as well as interactions between them; and also about whether there is any settlement reached with respect to that dispute.

MS. TOY: And I'm not going to necessarily say that that's fine down the road. I think that's something we'll address down the road. I may not even be counsel in a second lawsuit, so -- but for the purposes of here, you know, you can certainly --

MR. KERLIN: Uh-huh.

MS. TOY: -- reserve your right and we can -- we can fight that out later. But, for

MS. TOY: Yeah.

MR. KERLIN: -- that you can object, and we can -- we can have the discussion about whether or not the topics I'm going to ask for at a second deposition are overly broad or not relevant. I'm fine with all that.

MS. TOY: Yeah, we'd have to --

MR. KERLIN: But --

MS. TOY: -- we'd have to look at it and, like, I mean, go through the same process that we just went through.

MR. KERLIN: I just don't want to encounter the argument that you had an opportunity with the witness and we could have handled this all at once, but instead, Mr. Kerlin, you chose to wait so you could try and get a second deposition because I'd rather knock it all out at once. But I understand y'all's position and --

MS. TOY: Yeah. And I mean I think that would be --

MR. KERLIN: -- I'm fine.

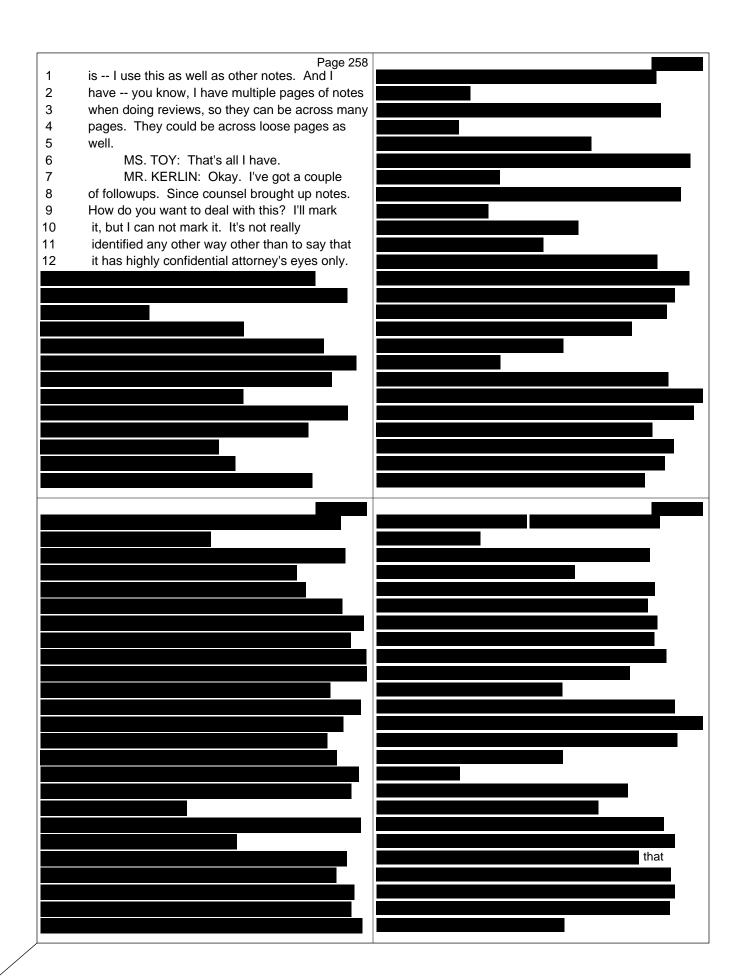

MS. TOY: -- very disingenuous. I hope that --

MR. KERLIN: I'm not -- yeah, I'm not

Well, for instance, in your review, what you don't have is you don't have the actual metrics for some of these, right? Like, you don't have four point or, excuse me, 1.48 inches, 1.46 that corresponds with different weights, things like that, correct? 	2 3 4 5 6 7 8 9	Α	because it looks like it's a steno pad, that you would make notes on when you're doing inspections for reviews or testing? It could be on it could be on multiple sheets of paper. These are these are my thoughts as I'm going through the process. There isn't one single place where I'm keeping file of all of my notes from all of the desks that I've reviewed. My resource that I create is the 4,000 word post. Okay. In fairness, I mean, you haven't had scientific training, right, about testing and
